

In Wordpress, **Plugins** are tools that extend the functionality of wordpress.

Clicking on **Installed** plugins will lead to this page:

Plugin	Description
<input type="checkbox"/> Advertising Manager	Control and arrange your Advertising and Referral blocks on your Wordpress blog. With Widget and inline post support, integration with all major ad networks. Version 3.4.11 By Scott Switzer, Martin Fitzpatrick Visit plugin site
<input type="checkbox"/> Akismet	Akismet checks your comments against the Akismet web service to see if they look like spam or not. You need a WordPress.com API key to use it. You can review the spam it catches under "Comments." To show off your Akismet stats just put <code><?php akismet_counter(); ?></code> in your template. See also: WP Stats plugin. Version 2.2.7 By Matt Mullenweg Visit plugin site
<input type="checkbox"/> WP-Cumulus	Flash based Tag Cloud for WordPress Version 1.23 By Roy Tanck Visit plugin site
<input type="checkbox"/> WPtouch iPhone Theme	A plugin which formats your site with a mobile theme for the Apple iPhone / iPod touch, Google Android and other touch-based smartphones. Version 1.9.7.6 By Dale Mugford & Duane Storey (BraveNewCode) Visit plugin site

Clicking under a plugin, you'll find the following options:

Advertising Manager
Activate | Edit | Delete

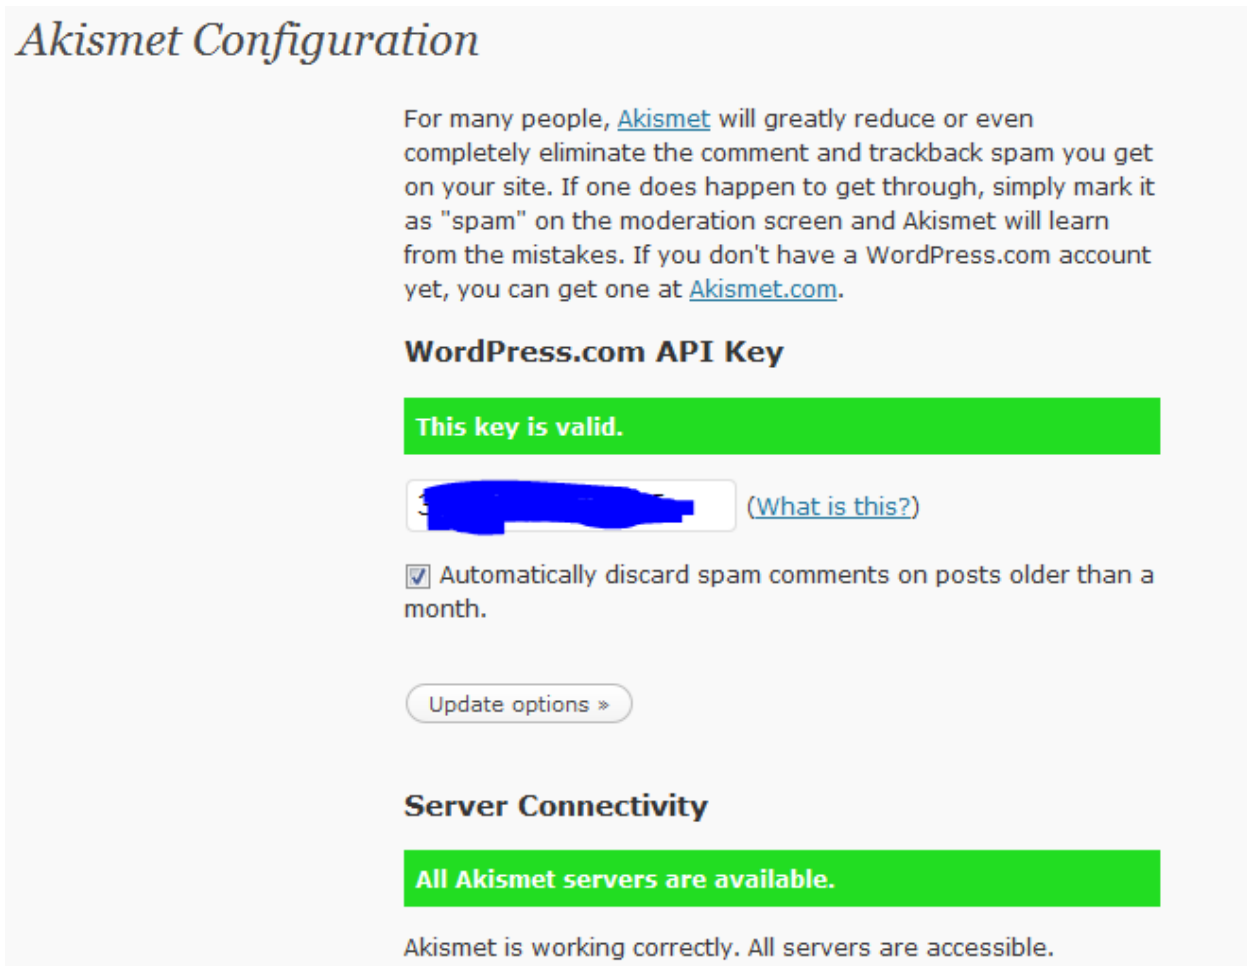

You can activate or deactivate a plugin. You can edit its web coding. You may also delete the plugin as well. (Activating too many plugins may slow down your website).

Akismet Configuration fights spam on Wordpress:

Akismet Configuration

For many people, [Akismet](#) will greatly reduce or even completely eliminate the comment and trackback spam you get on your site. If one does happen to get through, simply mark it as "spam" on the moderation screen and Akismet will learn from the mistakes. If you don't have a WordPress.com account yet, you can get one at [Akismet.com](#).

WordPress.com API Key

This key is valid.

[\(What is this?\)](#)

Automatically discard spam comments on posts older than a month.

[Update options »](#)

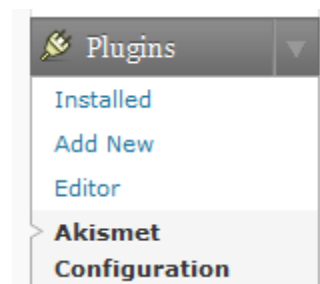

Server Connectivity

All Akismet servers are available.

Akismet is working correctly. All servers are accessible.

-You can get your own Akismet code from a Wordpress.com account or from Akismet.com (for free).

You have just finished exploring the **Plugins** panel:
